It Takes Two to Talk

Islam and the Destiny of Man by Charles Le Gai Eaton is a wide-ranging study of the Muslim religion from a unique point of view. The author, a former member of the British Diplomatic Service, was brought up as an agnostic and embraced Islam at an early age after writing a book (commissioned by T.S. Eliot) on Eastern religions and their influence upon Western thinkers. As a Muslim he has retained his adherence to the perennial philosophy which, he maintains, underlies the teachings of all the great religions. The aim of this book is to explore what it means to be a Muslim, a member of a community which embraces a quarter of the world’s population and to describe the forces which have shaped the hearts and the minds of Islamic people. After considering the historic confrontation between Islam and Christendom and analysing the difference between the three monotheistic faiths (Judaism, Christianity, and Islam), the author describes the two poles of Muslim belief in terms of [truth] and [Mercy]:[truth]the unitarian truth which is the basis of the Muslim’s faith and the mercy inherent in this truth. In the second part of the book he explains the significance of the Qur’an and tells the dramatic story of Muhammad’s life and of the early Caliphate. Lastly, the author considers the Muslim view of man’s destiny, the social structure of Islam, the role of art and mysticism and the inner meaning of Islamic teaching concerning the hereafter. Throughout this book the author is concerned not with the religion of Islam in isolation, but with the very nature of religious faith, its spiritual and intellectual foundations, and the light it casts upon the mysteries and paradoxes of the human condition.

Student Solutions Manual for Stewart’s Essential Calculus: Early Transcendentals, 2nd
**The Echo Manual**

This book is for instructors who think that most calculus textbooks are too long. In writing the book, James Stewart asked himself: What is essential for a three-semester calculus course for scientists and engineers? ESSENTIAL CALCULUS: EARLY TRANSCENDENTALS, Second Edition, offers a concise approach to teaching calculus that focuses on major concepts, and supports those concepts with precise definitions, patient explanations, and carefully graded problems. The book is only 900 pages—two-thirds the size of Stewart’s other calculus texts, and yet it contains almost all of the same topics. The author achieved this relative brevity primarily by condensing the exposition and by putting some of the features on the book’s website, www.StewartCalculus.com. Despite the more compact size, the book has a modern flavor, covering technology and incorporating material to promote conceptual understanding, though not as prominently as in Stewart’s other books. ESSENTIAL CALCULUS: EARLY TRANSCENDENTALS features the same attention to detail, eye for innovation, and meticulous accuracy that have made Stewart’s textbooks the best-selling calculus texts in the world. A remarkable eyewitness account of the most brutal combat of the Pacific War, from Peleliu to Okinawa, this is the true story of R.V. Burgin, the real-life World War II Marine Corps hero featured in HBO’s The Pacific. “Read his story and marvel at the manand those like him.”—Tom Hanks When a young Texan named R.V. Burgin joined the Marines 1942, he never imagined what was waiting for him a world away in the Pacific. There, amid steamy jungles, he encountered a ferocious and desperate enemy in the Japanese, engaging them in some of the most grueling and deadly fights of the war. In this remarkable memoir, Burgin reveals his life as a special breed of Marine. Schooled by veterans who had endured the cauldron of Guadalcanal, Burgin’s company soon confronted snipers, repulsed jungle ambushes, encountered abandoned corpses of hara-kiri victims, and warded off howling banzai attacks as they island-hopped from one bloody battle to the next. In his two years at war, Burgin rose from a green private to a seasoned sergeant, fighting from New Britain through Peleliu and on to Okinawa, where he earned a Bronze Star for valor. With unforgettable drama and an understated elegance, Burgin’s gripping narrative stands alongside those of classic Pacific chroniclers like Robert Leckie and Eugene Sledge—indeed, Burgin was even Sledge’s platoon sergeant. Here is a deeply moving account of World War II, bringing to life the hell that was the Pacific War.

Jane of Lantern Hill: a novel by Canadian author L. M. Montgomery. The book was adapted into a 1990 telefilm, Lantern Hill, by Sullivan Films, the producer of the highly popular Anne of Green Gables television miniseries and the television series Road to Avonlea. Montgomery began formulating an idea on May 11, 1936, began writing on August 21, and wrote the last chapter on February 3, 1937. She finished typing up the manuscript on February 25, as she could not hire a typist to do it for her. This novel was dedicated to "JL", her companion cat. The novel was written at Montgomery's house, "Journey's End"; the environment influenced Montgomery's writing to create a

Essential Calculus: Early Transcendentals

Anthony Swofford's Jarhead is the first Gulf War memoir by a frontline infantry marine, and it is a searing, unforgettable narrative. When the marines -- or "jarheads," as they call themselves -- were sent in 1990 to Saudi Arabia to fight the Iraqis, Swofford was there, with a hundred-pound pack on his shoulders and a sniper's rifle in his hands. It was one misery upon another. He lived in sand for six months, his girlfriend back home betrayed him for a scrawny hotel clerk, he was punished by boredom and fear, he considered suicide, he pulled a gun on one of his fellow marines, and he was shot at by both Iraqis and Americans. At the end of the war, Swofford hiked for miles through a landscape of incinerated Iraqi soldiers and later was nearly killed in a booby-trapped Iraqi bunker. Swofford weaves this experience of war with vivid accounts of boot camp (which included physical abuse by his drill instructor), reflections on the mythos of the marines, and remembrances of battles with lovers and family. As engagement with the Iraqis draws closer, he is forced to consider what it is to be an American, a soldier, a son of a soldier, and a man. Unlike the real-time print and television coverage of the Gulf War, which was highly scripted by the Pentagon, Swofford's account subverts the conventional wisdom that U.S. military interventions are now merely surgical insertions of superior forces that result in few American casualties. Jarhead insists we remember the Americans who are in fact wounded or killed, the fields of smoking enemy corpses left behind, and the continuing difficulty that American soldiers have reentering civilian life. A harrowing yet inspiring portrait of a tormented consciousness struggling for inner peace, Jarhead will elbow for room on that short shelf of American war classics that includes Philip Caputo's A Rumor of War and Tim O'Brien's The Things They Carried, and be admired not only for the raw beauty of its prose but also for the depth of its pained heart.

MORE THAN FORTY-FIVE YEARS OF INTENSIVE STUDY and thousands of experiments with people from all walks of life have gone into the creation of what I call Perfect Living. And what is Perfect Living? Perfect Living is a state of absolute self-togetherness, a union of the conscious and subconscious selves for the ultimate good and benefit of your whole person. Though this union of an individual’s two selves has been much written and talked about, little has been accomplished to bring it down to a tangible level. In my own mind-science studies I concentrated on discovering a practical method of unifying the conscious mind and the subconscious, and found a technique through which such a union can be achieved. My technique calls for four easily adopted attitudes and the use of switchwords, a means by which the conscious mind can “talk to” and direct the thought patterns of the subconscious. Through these switchwords the conscious person gains the cooperation of his subconscious self, creating an inner harmony that brings immediate results. For example, how often is your day spoiled by a persistent, nagging pain or headache? Aspirin may bring temporary relief, but it doesn’t get to the cause, and the pain returns. Wouldn’t it be wonderful to be able to utter a single word which would instantly cause all pain to vanish? There is such a word, and Chapter 9 of this book explains in detail how you can make it work for you. Or have you ever lost or misplaced some important or valuable possessions? The more desperately you search for the object, the more it seems to elude you. But with one of the magic switchwords you relax and let your Inner Self bring you to the thing you are searching for. Chapter 8 covers the details on how you can turn on your own finder machinery. These are only two small examples of what Perfect Living and its switchwords can do for you. With Perfect Living you can do anything. You can: 1. Conquer all your fears. 2. Learn to relax. 3. Keep yourself forever young. 4. Overcome despair and “blue” moods. 5. Begin to know yourself. 6. Get along better with other people. 7. Set goals and achieve them. 8. Gain money and new prosperity. 9. Free yourself of bad habits. 10. Achieve glowing health and freedom from pain. 11. Release your hidden abilities. 12. Be a permanently happy person, invulnerable to any upset or setback. But the benefits of Perfect Living are endless and the book itself explains them all to you. Why not put this modern miracle to work now? Make Perfect Living a part of your life!

In James Baldwin's classic short story, “The Outing,” from Going to Meet the Man, a Harlem church group escapes the city for a summer day-trip of prayer and, more importantly, romance. Every summer, the Harlem Mount of Olives Pentecostal Assembly gives an outing, around the Fourth of July. There is boating, testifying, and illicit steps towards young love. Delving deeply into the church community he would depict in Go Tell It On The Mountain, this is Baldwin at his most compassionate, investigating the sexual ambivalence and towering religion of a group of young children on their way up the Hudson. “The Outing” is the perfect introduction to an American master. In this wickedly humorous manual, language columnist June Casagrande uses grammar and syntax to show exactly what makes some sentences great—and other sentences suck. Great writing isn’t born, it’s built—sentence by sentence. But too many writers—and writing guides—overlook this most important unit. The result? Manuscripts that will never be published and writing careers that will never begin. With chapters on “Conjunctions That Kill” and “Words Gone Wild,” this lighthearted guide is perfect for anyone who’s dead serious about writing, from aspiring novelist to nonfiction writers, conscientious students to cheeky literati. So roll up your sleeves and prepare to craft one bold, effective sentence after another. Your readers will thank you.
