The cultural historian and author of *Keep Watching* analyses American ideas about race, money, identity, and their surprising connections through history. From colonial history to the present, Americans have passionately, even violently, debated the nature and of money. Is it a symbol of the value of human work and creativity, or a symbol of some natural, intrinsic value? In *Face Value*, Michael O'Malley provides a penetrating historical analysis of American thinking about money and the ways that this ambivalence intertwines with race. Like race, money is bound up in questions of identity and worth, each a kind of shorthand for the different values of two similar things. O'Malley illuminates how these two socially constructed hierarchies are deeply rooted in American anxieties about authenticity and difference. In this compelling work of cultural history, O'Malley interprets a wide array of historical sources to evaluate competing ideas about monetary value and social distinctions. More than just a history, *Face Value* offers a new way of thinking about the present culture of coded racism, gold fetishism, and economic uncertainty. "This is a 'big idea' book that no one but Michael O'Malley could even have thought of—much less pulled off with such nuance and clarity."—Scott A. Sandage, author of *Born Losers*

As plague ravages the overcrowded Earth, observed by a ruthless lunar people, Cinder, a gifted mechanic and cyborg, becomes involved with handsome Prince Kai and must uncover secrets about her past in order to protect the world in this futuristic take on the Cinderella story.

Anne Rice returns to the mesmerizing storytelling that has captivated readers for more than three decades with this new novel -- the first book in a new series called "Songs of the Seraphim." Angel Time is a dark, suspenseful novel about angels, reluctant assassins and a journey of redemption. Toby O'Dare -- a.k.a. Lucky the Fox -- has fallen far from grace. He is a contract killer who carries out violence whenever and wherever he is told, a soulless soul who takes orders from someone he calls "The Right Man." When a mysterious stranger comes into Lucky's nightmarish world and offers him a chance to save lives rather than destroy them, Lucky seizes the opportunity to escape the darkness. He is lifted in (angel) time and carried back through the ages to the primitive and treacherous world of thirteenth-century England, where Jews live an uneasy existence. He begins a journey that leads him from the medieval villages of England to the cities of London and Paris as his quest becomes a story of danger and flight, loyalty and betrayal, selflessness and love. From the Hardcover edition.

The worldwide phenomenon continues as Eva and Gideon face the demons of their pasts and accept the consequences of their obsessive desires . . . From the moment I first met Gideon Cross, I recognized something in him that I needed. Something I couldn't resist. I also saw the dangerous and damaged soul inside - so much like my own. I was drawn to it. I needed him as surely as I needed my heart to beat. No one knows how much he risked for me. How much I'd been threatened, or just how dark and desperate the shadow of our pasts would become. Entwined by our secrets, we tried to defy the odds. We made our own rules and surrendered completely to the exquisite power of possession . . . Praise for the Crossfire series: 'A hundred degrees hotter than anything you've read before.' This collection of essays by musicologists and art historians explores the reciprocal influences between music and painting during the nineteenth century, a critical period of gestation when instrumental music was identified as the paradigmatic expressive art and theoretically aligned with painting in the formulation of *pictura musica* (as with music, so with painting). Under music's influence, painting approached the threshold of abstraction; concurrently many composers cultivated pictorial effects in their music. Individual essays address such themes as visualization in music, the literary vs. pictorial basis of the symphonic poem, musical pictorialism in painting and lithography, and the influence of Wagner on the visual arts. In these and other ways, both composers and painters actively participated in interarts discourses in seeking to redefine the very identity and aims of their art. Also includes 17 musical examples.

An adventurous story of a frontier boy raised by Indians, *The Light in the Forest* is a beloved American classic. When John Cameron Butler was a child, he was captured in a raid on the Pennsylvania frontier and adopted by the great warrior Cuyloga. Renamed True Son, he came to think of himself as fully Indian. But eleven years later his tribe, the Lenni Lenape, has signed a treaty with the white men and agreed to return their captives, including fifteen-year-old True Son. Now he must go back to the family he has forgotten, whose language is no longer his, and whose ways of dress and behavior are as strange to him as the ways of the forest are to them.

What if the world holds more dangers—and more wonders—than we have ever known? And what if there is more than one world? From Heather Dixon, author of the acclaimed *Entwined*, comes a brilliantly conceived adventure that sweeps us from the inner workings of our souls to the far reaches of our imaginations. Jonathan is perfectly ordinary. But then—as every good adventure begins—the king swoops into port, and Jonathan and his father are enlisted to find the cure to a deadly plague. Jonathan discovers that he's a prodigy at working with a new chemical called fantillium, which creates shared hallucinations—or illusions. And just like that, Jonathan is knocked off his path. Through richly developed parallel worlds, vivid action, a healthy dose of humor, and gorgeous writing, Heather Dixon spins a story that calls to mind *The Night Circus* and Pixar movies, but is wholly its own.
